## Volvo Construction Equipment unveils a new portfolio of Volvo Service Contracts

Launching in North America at CONEXPO, Volvo Construction Equipment (Volvo CE) is introducing a new portfolio of Volvo Service Contracts, helping customers to manage the repair and maintenance requirements of their Volvo machinery.

The new Gold, Silver and Blue Contracts are built on existing Volvo Customer Support Agreements to provide Connected Services, Extended Coverage, Preventive Maintenance options and more.

- Volvo Construction Equipment has launched their new Volvo Service Contracts, available in three levels – Gold, Silver and Blue.
- Volvo Service Contracts can provide customers with total peace of mind when it comes to keeping their equipment working and performing at its best.
- Customers can choose the right contract to suit their business requirements while being assured their machinery is looked after by Volvo experts.

The three contract levels range from a Blue Contract, which covers preventive maintenance and service, right up to a Gold Contract which includes Complete Machine repairs and preventive maintenance for maximum uptime. For customers, a Volvo Service Contract means they can leave the maintenance of their equipment in the trusted hands of their Volvo dealer, enabling them to focus on their core business. What's more, fixed maintenance and repair costs enable much more accurate budgeting and cost management.

José Rosales, Head of Repair & Maintenance Product Management at Volvo Construction Equipment, explained: “The best machines deserve the best back-up, and a Volvo Service Contract gives our customers total peace of mind. They can rest assured their machinery is being looked after by the experts – our Volvo-trained dealer network.”

Rosales concluded, “The Gold, Silver and Blue Volvo Service Contracts provide our customers with three easy-to-understand options when it comes to choosing the right package for their business, according to their operational demands and their budget. A Volvo Service Contract is the smart choice for a business looking to take control of their costs and maintain the reliability and performance of their equipment to the very highest standard.”
