VOLVO EXCAVATORS 16.2-18.2t 156hp

# A PASSION FOR PERFORMANCE.

At Volvo Construction Equipment, we're not just coming along for the ride. Developing products and services that raise productivity – we are confident we can lower costs and increase profits for industry experts. Part of the Volvo Group, we are passionate about innovative solutions to help you work smarter – not harder.

## Helping you to do more

Doing more with less is a trademark of Volvo Construction Equipment. High productivity has long been married to low energy consumption, ease of use and durability. When it comes to lowering life-cycle costs, Volvo is in a class of its own.

## Designed to fit your needs

There is a lot riding on creating solutions that are suited to the particular needs of different industry applications. Innovation often involves high technology – but it doesn't always have to. Some of our best ideas have been simple, based on a clear and deep understanding of our customers' working lives.

## You learn a lot in 180 years

Over the years, Volvo has advanced solutions that have revolutionized the use of construction equipment. No other name speaks Safety louder than Volvo. Protecting operators, those around them and minimizing our environmental impact are traditional values that continue to shape our product design philosophy.

## We're on your side

We back the Volvo brand with the best people. Volvo is truly a global enterprise, one that is on standby to support customers quickly and efficiently – wherever they are.

## We have a passion for performance.

# BUILT FOR EFFICIENCY.

At Volvo we are proud of our fuel efficient and environmentally responsible machines, we deliver more power for less fuel. The EW160D is no exception; our newly developed engine meets all legislative requirements, improves performance and lowers fuel consumption to save you time and money.

## Fuel efficiency

Increased fuel efficiency from Volvo's D6 Stage IIIB/Tier 4 Interim engine, enhanced hydraulic system and well matched Volvo components. More power with ultimate efficiency.

## Diesel Particulate Filter (DPF)

The active-type DPF includes a Diesel Oxidation Catalyst function and regeneration burner. The system temporarily holds the exhaust fumes and incinerates them, lowering emissions without reducing performance.

## Exhaust Gas Recirculation (EGR) and Electronic Control Unit (ECU)

Efficient cooled external EGR reduces oxygen concentration and decreases the combustion temperature for lower emissions. The ECU controls the mix of recirculated exhaust gas and fresh air – crucial for reducing emissions, performance and fuel economy.

## Regeneration

Particles collected during filter cleaning are oxidised and transformed into non-toxic CO<sub>2</sub> every 6-10 hours. Volvo's regeneration system does not interrupt operation, performance or productivity. Regeneration can be postponed if the timing is inconvenient.

**Volvo D6 Stage IIIB/Tier 4 Interim engine**

Volvo's efficient diesel engine with V-ACT technology gives you more power, while consuming less fuel, for high torque at low engine speeds. Low emission levels for ultimate efficiency and environmental care.

# DEMAND CONTROL.

## Industry-leading cab

All-round visibility and an excellent operator environment are at the heart of Volvo's cab design. The spacious cab, with ample storage and leg room and easy to access controls, increases operator productivity and reduces fatigue.

Volvo puts you in control with its industry leading cab; achieve more while working comfortably. Get productive with our excellent all-round visibility, increased safety and ample space. See more and do more with Volvo.

#### Adjustable steering column

Slim design of the easily adjustable steering column ensures visibility is not impaired for increased operator comfort.

#### ROPS

The cab features Roll Over Protective Structure (ROPS) which meets the ISO 12117-2 safety standard for increased peace of mind in the unlikely event of machine roll over.

#### Smart controls

Navigate through the colour I-ECU monitor via the conveniently located control panel. The monitor can be clearly read in all light conditions for easy visual and diagnostic checks, increasing uptime and productivity.

#### Automatic climate control system

Operators can set their ideal temperature with Volvo's powerful climate control system which is fitted as standard. Industry leading air circulation and defrosting capability is delivered with 14 well-spaced vents for increased comfort and productivity.

# WE SET THE STANDARD.

Quality is at the forefront of the wheeled excavator design. These tough machines are highly mobile, productive and flexible – both on and off-road. Trust Volvo for quality you can rely on.

## Anti-slip plate

Added operator and service mechanic safety from punched anti-slip plate which provides superb grip, especially in wet or icy conditions.

## Foot steps and hand rail

Safe and easy access to the machine is ensured by two convenient foot steps and a hand rail.

## LED rear lights

LED lights on the rear counterweight provide longer life time and improved appearance.

## Stays and locking devices

Volvo's automatic stays prevent doors being blown closed for added safety, they can easily be manually released. Automatic locks ensure the doors close properly and enhance appearance.

## Hammer/shear (X1) and attachment rotation (X3) management

Increase your wheeled excavator versatility with optional hydraulics functions X1 hammer/shear and X3 rotation. X1 function utilizes the main system hydraulic flow to operate attachments requiring one or two way flow whereas X3 function provides an appropriate 2 way flow for tilting or rotating attachments.

## Tightening eyes

A new type of over dimensioned tightening eyes secure the machine to the trailer and enable it to be lifted. The four eyes are on top of the undercarriage sides to ensure easy operator access.

#### Quality

Volvo matched components and an excellent combination of features come together to produce a quality machine. Our rear view camera is fitted as standard and provides superb clarity via the colour I-ECU monitor. An optional side view camera further increases safety.

# PERFORMANCE YOU CAN MEASURE.

## Increased digging power

Perform at a higher level with increased digging power for greater productivity. Optimized breakout and digging forces provided by perfectly dimensioned hydraulic cylinders and optimized equipment geometry.

The Volvo wheeled excavators are designed to help you do more. An enhanced hydraulic system and well matched Volvo components guarantee you increased digging performance. It all adds up to more with Volvo.

#### Attachment management system

Allows storage of up to 18 different attachment presets and enables hydraulic flow (standard) and pressure (optional) to be adjusted according to requirements. Operators can change attachments quickly without manual setup.

#### Eco mode

For increased fuel efficiency eco mode has been added to the choice of work modes available. Choose the correct mode according to your working conditions for added versatility and increased performance.

#### Travel motor

New electrical, proportional control travel motor provides increased controllability for smoother downhill rides and when increasing speed while carrying a heavy load. For all models except 20Km/h version.

#### Tilt rotator

The optional tilt rotator acts as a wrist between the arm and bucket of the machine. It combines 360° rotary motion with 45° tilt action for flexibility and profitability.

#### Axle oscillation and lock

For increased off-road performance the front axle oscillation is 9° or 6° if mudguards are specified. Oscillation lock can be activated by the operator or automatically when 'Parking Mode' is selected.

#### Automatic idling system and automatic engine shut down

The idling system reduces rpm when the controls are inactive for a specified time (between 3-20 seconds). When the machine is stationary for the selected time the engine will automatically shut down – this is easily disabled and adjusted. Reduce fuel consumption and save money.

# EASY TO MAINTAIN.

Serviceability is built in to the new EW160D. Easy access to grouped service points allows for fast and effortless maintenance and service checks. Increase your uptime with Volvo.

## Grouped filters

Grouped filters in the pump compartment are accessible via one door at ground level for faster servicing and more machine uptime.

## Fuel filler pump

Get more versatility from the fuel filler pump which allows for the machine to be re-filled from an external fuel tank. This provides 50l/min and an auto-stop function.

## Service intervals on I-ECU

A service mode is incorporated into the I-ECU color monitor to enable diagnostic checks. Four separate service intervals – the engine oil/filter, fuel filter/water separator, hydraulic oil and hydraulic oil filter – are displayed on the monitor.

## CareTrack

Volvo's telematics system guides machine owners towards optimized productivity and their next service – remotely. Get fuel consumption and location reports to save fuel and reduce costs.

## Grouped greasing points

Conveniently located boom and arm greasing points are grouped for simplicity and ease of access. Greasing is needed at 50 hour intervals and at 250 hours for the slew ring. Quicker maintenance leads to increased productivity.

## Cooling system

Cooling fan speed is controlled to its need which reduces fuel consumption and noise. The three coolers – change air cooler, water cooler and hydraulic cooler – form a single layer layout and are cooled by one fan for a more compact design, which is easy to service and clean – guaranteeing you more uptime.

#### **Serviceability**

Grouped filters and accessible radiators are quick to access from ground level via large compartment doors – increasing safety. Fast and easy access for maintenance means regular checks are more likely to be done leading to longer machine operating life.

# THE COMPLETE PACKAGE.

## Mono and two piece offset boom

The EW160D is available with either a mono boom or a two piece boom, both with or without offset, providing increased flexibility and versatility.

## Performance

Perform at a higher level with increased digging force for greater productivity.

## Auto greasing system

This optional feature supplies the correct amount of lubrication to all greasing points on a timed basis for reduced costs.

## Higher working pressure

Reinforced digging equipment due to increased hydraulic pressure.

## Eco mode

Work in Volvo's new eco mode for increased fuel efficiency.

#### **Cab**

Spacious cab with excellent all-round visibility and easy to access controls. Approved to ROPS safety standards.

#### **Diesel Particulate Filter (DPF)**

The active-type DPF incinerates exhaust fumes to lower emissions.

#### **Stage IIIB/Tier 4 Interim engine**

Volvo's efficient diesel engine with V-ACT technology gives you more power, while consuming less fuel for low emission levels.

#### **Heavy counterweight**

A 13% heavier counterweight for increased stability when using bulky attachments is available as an option for more versatility.

#### **Serviceability**

Grouped filters are quick and easy to access from ground level via large compartment doors for increased safety.

#### **Quality**

Volvo matched components and excellent features combine to produce a quality machine you can trust.

#### **Travel motor**

New electrical, proportional control travel motor provides increased controllability for a smoother downhill ride.

# VOLVO EW160D IN DETAIL.

## Engine

Volvo Construction Equipment is ready to comply with the tough new EU Stage IIIB and US (EPA) Tier 4 interim legislation for off-road vehicles with the introduction of a cascade of innovations in its new generation engines with Volvo Advanced combustion technology (V-ACT).

Volvo machines are equipped with Volvo designed and manufactured in-line turbo charged diesel engine with high pressure unit injector system. The engine features an externally cooled exhaust gas re-circulation (E-EGR) and a Diesel Particulate Filter.

Engine	VOLVO D6H	
Power out at	rpm	1 900
Gross (ISO 14396)	kW	115
	hp	156
Net (ISO 9249, DIN 6271)	kW	112
	hp	152
Max. torque at 1350 rpm	Nm	716
No. of cylinders		6
Displacement	l	5.7
Bore	mm	98
Stroke	mm	126

## Electrical system

High-capacity electrical system that is well protected. Waterproof double-lock harness plugs are used to secure corrosion-free connections. The main relays and solenoid valves are shielded to prevent damage. The master switch is standard.

Voltage	V	24
Battery	V	2 x 12
Battery capacity	Ah	2 x 140
Alternator	A	28 V /120 A
Alternator rating	W	3 360

## Undercarriage

Drive train: A variable axle piston motor in combination with a power shift gearbox supplies 3 speeds. The gearbox distributes the energy via propeller shafts to the axles.

Framework: All-welded robust torsion box frame.

Wheels: Alternative single and twin wheels available.

Front axle: Robust excavator axle with automatic or operator controlled front axle oscillation lock.

Oscillating	°	± 9
with mudguards	°	± 6
Twin wheels		10.00-20
Max. tractive force (net)	kN	104
Travel speed:		
on road	km/h	20.0/30.0/35.0
off road	km/h	5.0/7.4/8.7
creep	km/h	4
Min. turning radius	m	7.3

## Cab

New-design Volvo Care Cab with operator protective structure, large and roomy interior, more leg room and foot space. One way travel pedal with rocker switch control (F-N-R) on the right joystick. One-touch release for digging brake pedal. Audio system with remote control. 3 cup holders, 3 outlets, independently adjustable joystick consoles.

Excellent all-round visibility provided by maximized cab class, transparent roof hatch, 2-piece sliding door window and longstroke, easy to adjust and narrow steering column. The liftable front windshield can easily be stored in the inside roof space and clipped in position. The removable lower front glass can be stored in the side door pocket. Interior lighting consists of one reading light and one light with timer. The pressurized and filtered cab air is supplied by a 14-vent climate-control

providing fast defrosting and high cooling and heating performance. Viscous/spring mounted suspension cushions protect the operator from vibrations. Deluxe air-suspension seat with adjustable seat suspension, height, tilt, recline and forward-backward settings. (option)

Adjustable, easy to read 6.4" LCD color monitor provides real time information of machine functions and important diagnostic information and is switchable to rear view camera monitor.

## Sound Level

In cab, acc. to ISO 6396	LpA dB(A)	70
External, acc. to ISO 6395 (Directive 2000/14/EC)	LwA dB(A)	101

## Hydraulic system

Closed-centre load sensing hydraulic system with pressure compensated valves. Load independence of movements. Flow sharing feature, combined with a high flow electronically controlled pump (power regulation). The system gives superior manoeuvrability and fast movements, for optimal working result and economy.

The following working modes are included in the system:

Parking mode (P): Parking position for optimal safety.

Travel mode (T): Engine speed is controlled by travel pedal stroke for low fuel consumption and noise.

Working mode (W): Full working flow with adjustable engine rpm for normal working and best speed utilisation.

Customer mode (C): Operator can set proper oil flow in accordance with job conditions.

Power Boost: All digging and lifting forces are increased.

Hydraulic pumps:

Max. flows:

<b>Main pump</b> (type low noise axial piston pump)	l/min	256
<b>Brake + steering pump</b> (type low noise gear pump)	l/min	36
<b>Servo pump</b> (type low noise gear pump)	l/min	15
Max. pressure:		
Implements	MPa	34/37.5
Travel system	MPa	37.5
Pilot System	MPa	4

## Brakes

Service brakes: servo-hydraulically manoeuvred self-adjusting wet multidiscs with two separate brake circuits.

Parking brake: negative wet disc in gear housing, spring applied and pressure released.

Digging brake: service brake with mechanical lock system.

Security system: The 2-circuit travel brakes are supplied with two accumulators in the event of failure in the service brake system.

## Total machine weights

Machine with 5.0 m mono boom, 2.45 m dipper arm, quickfit S6, 530 kg /780 l bucket. Standard counterweight.

Dozer blade front and outriggers rear	kg	17 250
Dozer blade rear only	kg	16 200
Front and rear outriggers	kg	17 500

Machine with 5.1 m 2-piece boom, 2.45 m dipper arm, quickfit S6, 530 kg /780 l bucket. Standard counterweight

Dozer blade front and outriggers rear	kg	17 600
Dozer blade rear only	kg	16 550
Front and rear outriggers	kg	17 850

## Service refill capacities

Fuel tank	l	250
Hydraulic system, total	l	260
Hydraulic tank	l	123
Engine oil	l	25
Engine coolant	l	33
Transmission	l	2.5
Axel differential:		
Front axle	l	9.5
Rear axle	l	12.5
Final drive, wet disc type	l	4 x 2.5

## Slew system

The superstructure is slewed by the means of a radial piston motor without reduction gear.

Automatic slew holding brake and anti-rebound valve are standard.

Max slew speed	rpm	10
Max. slew torque	kNm	50.4

Notes:

- Working pressure with Power Boost = 37.5 MPa.
- The above values are in compliance with ISO standard 10 567. They do not exceed 87 % of hydraulic lifting capacity or 75 % of tipping load, with the machine on firm, level ground.
- Load capacities marked with an asterisk (\*) are limited by machine's hydraulic lifting capacity rather than tipping load.

**LIFTING CAPACITY**

At the arm end, without bucket and quick fit. Unit: 1 000 kg.

For lifting capacity including bucket/quick fit, simply subtract actual weight of those parts from the following values. With heavy counterweight.

Notes:

- Working pressure with Power Boost = 37.5 MPa.
- The above values are in compliance with ISO standard 10 567. They do not exceed 87 % of hydraulic lifting capacity or 75 % of tipping load, with the machine on firm, level ground.
- Load capacities marked with an asterisk (\*) are limited by machine's hydraulic lifting capacity rather than tipping load.

# SPECIFICATIONS.

## LIFTING CAPACITY

At the arm end, without bucket and quick fit. Unit: 1 000 kg.

For lifting capacity including bucket/quick fit, simply subtract actual weight of those parts from the following values. With heavy counterweight.

Notes:

1. Working pressure with Power Boost = 37.5 MPa.
2. The above values are in compliance with ISO standard 10 567. They do not exceed 87 % of hydraulic lifting capacity or 75 % of tipping load, with the machine on firm, level ground.
3. Load capacities marked with an asterisk (\*) are limited by machine's hydraulic lifting capacity rather than tipping load.

**LIFTING CAPACITY**

At the arm end, without bucket and quick fit. Unit: 1 000 kg.

For lifting capacity including bucket/quick fit, simply subtract actual weight of those parts from the following values. With heavy counterweight.

 Across under-carriage  Along under-carriage	Arm end (bucket pivot) related to ground level	Reach from machine centre (u = support up/d = support down)																														
		1.5 m				3 m				4.5 m				6 m				7.5 m				Max.				Max.						
		u	d	u	d	u	d	u	d	u	d	u	d	u	d	u	d	u	d	u	d	u	d	u	d

- Working pressure with Power Boost = 37.5 MPa.
- The above values are in compliance with ISO standard 10 567. They do not exceed 87 % of hydraulic lifting capacity or 75 % of tipping load, with the machine on firm, level ground.
- Load capacities marked with an asterisk (\*) are limited by machine's hydraulic lifting capacity rather than tipping load.

# EQUIPMENT.

## STANDARD EQUIPMENT

### Engine

Turbocharged, 4 stroke Volvo diesel engine with water cooling, direct injection and charged air cooler that meets EU Step IIIB/Tier4 emission requirements  
Intake air pre-heater  
ECO- Modus  
Fuel filter and water separator  
Fuel filler pump: 50 l/min with automatic shut-off  
Aluminium core radiator

### Electric/Electronic control system

Contronics-computerized monitoring and diagnostic system  
Master electrical disconnect switch  
Adjustable automatic idling system  
One-touch power boost  
Adjustable monitor  
Safety stop/start function  
2 Frame mounted halogen lamps  
Alternator, 120 A  
Batteries, 2 x 12 V/140 Ah  
Start motor, 24 V/5.5 kW  
CareTrack via GSM  
Rear view camera

### Undercarriage

2-speed power transmission plus creep speed  
Oscillating front axle  $\pm 9^\circ$  with out mudguards/  $6^\circ$  with mudguards  
2-circuit travel brakes  
Maintenance-free propeller shafts

### Superstructure

LED Rear lights  
Service walkway with anti-slip grating  
Centralised lubricating point for slew bearing

### Digging equipment

Attachment points for extra hydraulics  
Centralised lubrication point

### Cab and interior

Volvo Care Cab with fixed roof hatch /ROPS  
Heater & air-conditioner, automatic  
Hydraulic dampening cab mounts  
Adjustable operator seat and joystick control console  
Adjustable steering column  
Hydraulic safety lock lever  
Control joystick, with 5 switches each  
Cab, all-weather sound suppressed, includes:  
Cup holder  
Door locks  
Safety glass, light tinted  
Floor mat  
Horn  
Large storage area  
Pull-up type front window  
Removable lower windshield  
Retractable seat belt  
Windshield wiper with washer and intermittent feature  
Sun shield, front, roof & rear  
Master ignition key

### Hydraulic system

Load sensing hydraulic system  
Cylinder cushioning  
Cylinder contamination seals  
Return filter of full flow type 2 000 h exchange interval  
Pressure relief system (servo accumulator)  
Proportional controlled visco-clutch cooling fan  
Hose rupture valve for boom  
Hydraulic long life oil ISO VG 46

## OPTIONAL EQUIPMENT

### Engine

Diesel coolant heater with digital timer  
Block heater, 240 V  
Water separator with heater  
Dust net  
Reversible fan  
Tropical cooling  
CareTrack via satellite

### Electric / Electronic control system

Travel alarm  
Rotating beacon  
Extra work lights:  
Service walkway 1 and counterweight 1  
Boom-mounted 2  
Cab front 2  
LED lights  
Multi-channel electric centre passage  
Anti-theft system  
Tilting and rotating attachment preparation

### Hydraulic system

Hose rupture valve for dipper arm  
Boom float function  
Boom Suspension System  
Hydraulic oil, biodegradable ISO VG 32  
Hydraulic oil, biodegradable ISO VG 46  
Hydraulic long life oil ISO VG 32  
Hydraulic long life oil ISO VG 68  
Hydraulic equipment for:  
Hammer & shears  
Slope bucket/rotator  
Grab/clam shell  
Quick fit  
Flow control  
Flow and pressure control

### Cab and interior

Volvo Care Cab with openable PC roof hatch / ROPS  
Tiltrotator Joystick  
Proportional control joystick  
On/off joystick  
Falling object guard (FOG)  
Cab mounted falling object protective structures (FOPS)  
Rain shield, front  
Side camera  
Sunlight protection, roof hatch (steel)  
Safety net for front window  
Lower wiper  
Anti-vandalism kit  
Radio with CD player and MP3 input  
Ashtray  
Lighter  
Seat:  
Fabric seat, with heater  
Fabric seat, with heater and air suspension  
Luxury operator seat

### Undercarriage

Trailer Towing System  
Twin tires 10.00 - 20 / 11.00 - 20  
Single tires 18R - 19.5 / 620/40-22.5  
Stone protection rings  
Front dozer blade and rear outriggers  
Rear dozer blade  
Front outriggers and rear dozer blade  
4 outriggers  
Grab holder  
Mudguards, front/rear  
Tool box, left hand side/right hand side  
Cruise control  
Travel speed 20 km/h, 30 km/h, 35 km/h  
Wide axle 2.75 m

## OPTIONAL EQUIPMENT

### Digging equipment

Booms

5.0 m mono boom

5.1 m 2-piece boom

4.75 m mono offset boom

5.2 m 2-piece offset boom

Dipper arms

2.0 m, 2.45 m, 2.6 m, 3.1 m

2.95 m grab arm

### Hydraulic quick fit

S1 system

S6 system

Universal system

### Attachments

Buckets, direct fit and quick fit:

General Purpose bucket (GP)

Heavy Duty bucket

Slope bucket

Lifting eye

### Service

Wheel chocks

Tool kit, daily maintenance

### Superstructure

Heavy counter weight

License plate preparation

Standard and optional equipment may vary by market.

Please consult your local Volvo dealer for details.

## SELECTION OF VOLVO OPTIONAL EQUIPMENT

Boomfloat

Boom Suspension System

Elevated cab

Heavy counterweight

Auto digging brake

Tilt rotator joysticks
