

VOLVO CONSTRUCTION EQUIPMENT

CARE KITS FOR PAVERS

MORE CARE. BUILT IN.

VOLVO CARE KITS FOR TROUBLE-FREE OWNERSHIP

Volvo Pavers are manufactured and delivered with these quality features in common: reliability, performance, efficiency, safety and comfort. As soon as your new machine has been set to work, keeping it working with maximum availability becomes a top priority. This is where Volvo Care Kits come in.

One kit delivers several advantages

Replacing only major or visibly worn parts and not those around them can add stress on the parts which are replaced – and that can significantly reduce working life. Using Volvo Care Kits for wear parts replacement ensures optimum part life and performance. Eliminate the guesswork of which parts to replace by having them all on hand in a single package.

Volvo Care Kits for Pavers deliver several advantages during periods of maintenance, service or repairs.

- **Time savings**
Identifying, ordering and assembling required parts is reduced to one simple step.
- **Lower cost**
Than buying the same parts individually.
- **Peace of mind**
All the correct parts – no more, no less.
- **Reliability**
100 % Genuine Volvo Parts.
- **Latest updates**
Always receive the latest technical improvements.

Rubber track pads kits for tracked pavers
