# MORE FOR THE MONEY

The Volvo Endurance Bucket offers superior quality compared to your local market offering and is great value for money. The bucket contributes to easy loading and unloading as well as fast handling for more loads an hour. The durable, ridged bucket has been reinforced with Volvo wear parts and is specifically designed to handle tough conditions. It's strong, robust structure and cast wear parts increase its life for less down time and Volvo offers the Volvo Warranty and Volvo Parts for all service support required on your job site.

## Volvo teeth and wear parts

For less down time, the Volvo Endurance Bucket features original Volvo Endurance teeth and wear parts designed for durability and longer life. The General Purpose bucket comes as standard with Volvo GP Endurance teeth, while the Heavy Duty bucket is standard with the Volvo RC Endurance teeth. Volvo side cutters and wear shrouds are also standard, depending on the bucket selected.

## Volvo Endurance Buckets

If you want value for money then the Volvo Endurance Bucket is the right choice for your excavator. The original high-performing Volvo designed excavator bucket is made for your Volvo machine and provides a lower cost alternative to premium buckets. It comes with the Volvo limited warranty of one year/ 2,500 hours and with less down time and operation costs, it will deliver excellent value for money.

## Volvo Endurance GP (General Purpose) bucket

Volvo's General Purpose bucket is ideal for digging in low impact materials such as soft ground, soil, clay or mixed compositions of dirt and fine gravel. It features weld-on side cutters, bottom and side wear protection, reinforcements on the top of the bucket and comes with a standard GP tooth and lifting hook.

## Supporting your peace of mind

Volvo supports you long after your Volvo Endurance Bucket purchase by offering a limited warranty and supplying Volvo parts. For peace of mind Volvo can support your business needs and provide a comprehensive service to ensure your operations continue to run smoothly.

## Efficient design / Easy to fill and empty

For less down time, the Volvo Endurance Bucket features original Volvo teeth and wear parts designed for durability and longer life. The General Purpose bucket comes as standard with Volvo GP teeth, while the Heavy Duty bucket is standard with the Volvo RC teeth. Volvo side cutters and wear shrouds are also standard, depending on the bucket selected.

## Volvo Endurance HD (Heavy-Duty) bucket

The Volvo Heavy-Duty bucket is a heavier and more robust offering, with a rigid top structure and double wear shrouds on each side of the bucket. They are built for aggressive digging and bucket loading in abrasive conditions and applications, such as severe hard rock. It comes with RC tooth as standard.

## Stronger for longer

Based on a proven design and made with extra reinforcements and thick, wear resistant materials, the Volvo Endurance Bucket lasts longer with a tough structure that is robust enough to meet the most rugged conditions. Make an impact on your business with this durable bucket.
