# SKID STEER LOADER ATTACHMENTS

## Stump Grinder

Cab controlled arm extends and swings left or right to allow attachment to quickly grind out stumps below ground level.

## Angle Broom

Sweeps at 30° left or right of center. Standard 120° brush hood reduces dust.

## Vibratory Roller

Packs gravel, sand or dirt for a smooth level surface. Ideal for trenching and asphalt paving applications.

## Pick Up Broom

Over-the-brush pick up gathers a variety of material and increases bucket capacity. Bucket drops down while sweeper is raised for complete unloading.

## Augers

Ideal for digging holes for poles, posts, footings and plants.

## Hydraulic Breakers

Powerful and durable attachments for breaking concrete, rock or other hard surfaces.

## Snow Blade

Great for snow removal and light grading. Angle can be adjusted from the cab.

**Harley Rake**

Ideal for landscaping and final site preparation for seeding.

**Dozer Blade**

Use for dozing and backfilling in tough grading conditions.

**Buckets, Tooth and Bolt-on Cutting Edge**

Dirt, light materials, landscaping applications. Available in variety of models and sizes.

**Landscape Rake**

Prepare a level bed for seeding or sod.

**Tracks**

Fit over tires for superior traction in mud, sand or snow.

**Grapples**

Heavy duty design for waste and re-cycling operations. Quick clean up of loose, bulky or baled materials.

**Pallet Forks**

Rugged design makes it easy to handle heavy palletized material.

**Back Hoes**

Heavy duty digging power for high production digging and trenching.

**Trenchers**

Heavy duty attachments for installing sprinkler systems, underground utilities and silt fence.

SKID STEER LOADERS

## HIGH FLOW ATTACHMENTS

Get more work done faster with these high performance tools coupled to a high flow SCAT TRAK® model

### Augers

Ideal for tough soil conditions and digging holes requiring large diameters.

### Snow Blower

Two-stage blower makes short work of tall drifts. Available in standard flow and high flow.

### Rock Wheels

Make precise cuts through thick pavement for easier removal. Also allows for installation of underground utilities.

### Cold Planers

Quickly cut asphalt and concrete. Long wearing steel roller construction. Designed for easy service.
