VOLVO SKID STEER LOADERS

MC60B, MC70B, MC80B, MC90B, MC110B

VOLVO

LOADS OF COMFORTABLE PRODUCTION.

Get a load of the Volvo Skid Steer Loader – and get comfortable with doing more. Joining Volvo's compact global range, with Compact Wheel Loaders, Compact Excavators and Backhoe Loaders, Volvo Skid Steer Loaders deliver production, serviceability and safety – surrounded in all-day comfort.

The comfortable way to work

You're going to get more work done in a machine that is comfortable. That's because you stay alert, fresh and focused. And to make sure the last hour of your shift is as comfortable as the first, Volvo Skid Steer Loaders are full of comfort features, inside and out, top to bottom. At the core of the frame, the isolation-mounted cab reduces vibration and noise during operation. Inside the cab, enjoy spacious ergonomics with plenty of shoulder, hip and legroom to make any sized operator feel at ease. And for peace-of-mind, the large top window made from durable tempered glass offers clear visibility above the cab.

You're in charge. Take the controls.

When it comes to controlling machine operation, you've got options. Choose mechanical or pilot controls - depending on your preference or the job at hand. The optional hydraulic pilot controls operate steering and drive functions with the left lever and loader functions with the right. Mechanical controls offer a direct feel for the machine, as each hand controls its respective machine side. Comfortable steering control levers are positioned perfectly to minimize arm movement and reduce fatigue. And depending on the control option you choose, enjoy greater convenience and precision with hand, or hand and foot throttle control.

The seat of comfort

When you work 8-10 hour shifts, you have an appreciation for comfortable seats. That's why Volvo gives you a choice of two seat options to fit operators and jobs of all types. Choose from a deluxe high-back seat with adjustable backrest or a suspension seat with weight adjustment. It doesn't stop there - you also get an ergonomic armrest that is integrated in the seat bar.

Get a quick gauge on performance

Stay on top of your machine's performance and maintenance with large, easy-to-read instruments located directly within your field of vision. With no obstruction of view, you get a quick gauge on all the key instruments, including fuel, hour meter, engine coolant temperature, engine oil pressure, hydraulic oil pressure and engine preheat. It's production, made comfortable.

Large, durable top window.

Two comfortable seat options.

• Integrated comfortable armrest/seat bar.

BUILT TO PERFORM. BUILT TO LAST.

Skid steers need to be versatile. And because you put them through a lot each day, you need durability and performance you can count on. You found it. Volvo Skid Steer Loaders load it up and move on to the next job – day after day, year after year. It's what you need. It's what you get.

Outlast the competition

When it comes to greater profits, it's all about getting more done with less cost and less time. That means Volvo performance and reliability. Volvo Skid Steer Loaders bring it every day, with the durability you need for the toughest jobs and the performance to keep you ahead of the competition.

Peak performance - every day

Stay at the top of your performance with the latest generation of Volvo engines. Perfectly matched, Volvo Skid Steer Loaders feature powerful liquid-cooled, 16-valve Volvo engines. They deliver brute power – yet are quiet, efficient and meet Tier III environmental standards. And to really get more done, unleash the power of your high-performance attachments with an optional high-flow system. You get the extra oil flow and hydraulic power you need for easy operation of profitable attachments.

Volvo protects your investment

Construction equipment is an investment and you need maximum availability to stay profitable. That's why Volvo keeps you protected with machines that are there for you. The lockable, steel rear door protects the engine compartment and other key components to reduce damage and risk of vandalism. And to avoid the dangers of today's jobsites, Volvo Skid Steer Loaders offer excellent 360° 3D visibility with large top, rear, side and front openings – to keep you earning and working safely.

Leave a lasting impression

Get long machine life with a huge dualelement air cleaner that delivers plenty of clean air to the engine. This enhances engine life, reduces maintenance and lengthens service intervals. And for longlasting protection of the frame and arms, dual bolt-on lift-arm stops cushion the liftarm when lowered all the way down. This eliminates noise and provides support when digging or pushing.

Heavy-duty durability

The base of Volvo's durability is the solid, one-piece steel mainframe – welded for strength and long life – to stand up to daily abuse. The sealed, heavy-duty cast iron axle housings feature lubricated-for-life bearings. And to absorb damage, the solid cast-iron rear bumper keeps you protected and improves resale value. It adds up to less maintenance and more uptime.

· Clean, efficient, powerful Tier III Volvo engine.

· Dual element air cleaner enhances life.

YOUR ACCESS TO SAFE PRODUCTIVITY.

It's a Volvo priority to keep you, your jobsite, and our environment safe and protected. It's important and it means you can spend more time on the job and less time worrying about other things. So for maximum uptime, safety and production – welcome to the Volvo Skid Steer Loader.

Everything in access

With Volvo, we're accessible – so you can do the routine maintenance, service the problem and get back to work. Volvo Skid Steer Loaders are built for maximum uptime and quick serviceability. All service checks offer easy access. The cab tilts forward, supported by gas shocks and a safety lock, for complete access. The oil cooler swings away from the radiator for easy cleaning. Get at the engine compartment with the wide opening rear door that swings out a full 90° and the flip-up engine access cover. And if you ever need access to the chains and sprockets, the large removable drivechain cover plate gets you in and out quickly.

Safe and sound

Staying on the job – profitably – requires an acute attention to safety. That's why Volvo Skid Steer Loaders are ROPS/FOPS certified. Raising the seat bar/armrest disengages hydraulic circuits, locks all controls and activates the parking brake to prevent accidental movements. The retractable seatbelt automatically adjusts to keep you safely planted in the seat. When it's time to check the coolant expansion tank, enjoy the safety of a translucent, ataglance level check. And to reduce the risk of injury, the engine fan guard keeps debris out and the operator safe.

At your service - on the job

All machines require service and upkeep. Stay on top of maintenance with a highly visible instrument panel that provides visual and audible warnings of critical machine functions. One such warning is the air filter restriction indicator, which visually alerts you when service is required. You stay informed and avoid unnecessary maintenance. For extra protection and convenience, the fuel separator and filters are mounted next to the cooling pack, easily accessible through the engine door. And for quick inspection during routine maintenance, the at-a-glance hydraulic sight gauge and interior, no-tool fuse panel keep you working longer and more efficiently.

Do not disturb

A noisy machine isn't just a jobsite disturbance, it can add to operator fatigue. Volvo Skid Steer Loaders cabs are isolation mounted in all four corners of the frame – for reduced vibration and noise. After an 8-hour shift, you'll hear and feel the Volvo difference (and so will those around you).

· Safe and easy cab entry/exit.

• Swing-out oil cooler makes cleaning easy.

ROPS/FOPS cab tilts for fast access.

GET ATTACHED TO GREATER PROFITS.

For functional solutions that take your productivity in new directions, the answer is Volvo attachments. With Volvo's universal quick-attach, you have the ability to tackle a wide range of jobs with speed and ease. Dig, grab, trench, rake and move more on your way to greater profits.

Compact, yet powerful, Volvo Skid Steer Loaders are one of the most versatile machines on the jobsite. At the front of it all is the wide range of productive attachments. Sometimes the job calls for hauling earth, cutting trenches or digging postholes. Other times you need to move palletized material or break concrete. With Volvo attachments, you're ready for every job – with one machine: your Volvo Skid Steer Loader.

The quick way to go

The Volvo universal quick-attach helps you get more done – faster. By letting you use most attachments available today, you can maximize use of your existing attachments or those on the jobsite. The flat-face hydraulic couplers make connections easy and secure.

A bucket for every occasion

Buckets are not one-size-fits-all. That's why Volvo offers different bucket options for the ideal fit. Each features a heavy-duty skid bar. High carbon bolt-on cutting edges provide superior edge life and durability. All buckets have three large steps for easy entry / exit to the machine while avoiding having to step in the bucket itself. Whether you need a long-lip landscape bucket for good visibility to the cutting edge and corners, or a shortlip dirt bucket for higher breakout force, Volvo has the bucket size and type to fit your needs. Choose from various dirt, light material and landscaping buckets. You can also add some teeth to your job with a toothbar for greater flexibility.

Always on track

When terrain conditions get rough, be ready with simple to install over-the-tire steel tracks. Adjustable track tension ensures long, durable life.

A new breakthrough

With the hydraulic hammer you've got the consistent impact energy you need to break through hard materials. It has simple service of tool and seals, and a broad hydraulic flow operating range for compatibility across machine sizes.

From pallet forks to power rakes

One set of Volvo pallet forks offers handling for all the skid steers in your fleet. You get strength to handle heavy loads and optimum visibility through the frame and guard. It doesn't end there. Volvo Skid Steer Loaders are compatible with many other attachments, including trenchers, grapple buckets, sweepers, augers, cold planers, pickup brooms and power rakes. You find the job, we'll provide the attachment.

Break it up with the hydraulic hammer.

A clean sweep for dust, dirt, debris and snow.

Trencher cuts through the job with ease.

· The road to smooth operation.

MC60B, MC70B, MC80B, MC90B, MC110B

STANDARD EQUIPMENT

Engine

Volvo brand, 4-cylinder, liquid-cooled, 16-valve, direct-injection diesel engines Meet US EPA Tier III standards
Self-cleaning, dual-element, air cleaner Dual element dry air cleaner
Remote-mount fuel filter
Remote-mount water separator
Remote-mount electric fuel pump 12-Volt heavy-duty starter
Alternator with internal regulator
Quick cycle engine preheat
Engine oil remote drain hose
High-capacity radiator
Anti-freeze protection to -35 degrees F
Separate, tilt-out hydraulic oil cooler

Electrical

Heavy-duty, maintenance-free battery
Engine start/stop key switch
Fuel gauge
Coolant temperature gauge
Hour meter
Two front 50-Watt work lights
Master electrical shut-off switch
In-cab fuse panel accessible without tools
Sealed electrical connectors meet IP65
water ingress standard

Warning lights:

Air filter restriction, alternator output, seat belt use, hydraulic filter restriction, hydraulic oil temperature, battery charge Warning lights with audible alarm: Engine coolant temperature, engine oil pressure and hydraulic oil temperature

Transmission

Two variable displacement piston pumps mounted in tandem

Two fixed displacement high torque motors

Hydraulics

Lift-arm mounted auxiliary hydraulics with standard flat face couplers (ISO 16028) 5 micron hydraulic oil filter mounted in tank

Safety

Lift-arm support strut
Electric lift and tilt hydraulic lockouts
Back-up alarm
Automatic parking brake
Emergency exit rear window
Horn
Rear and top door props

Cab

Top window
Rear window/secondary escape.
Deluxe, high-back, super-comfort seat with fore-aft adjustment and seatback angle adjustment.
2" retractable seat belt
Operator seat bar
Dual travel/steering levers
Dual, adjustable-angle foot pedals
Tilt forward ROPS/FOPS cab
12-Volt power accessory outlet

Other

Lockable rear door and engine cover Quick-Attach mounting frame Lockable fuel cap

OPTIONAL EQUIPMENT

Cab

Adjustable suspension seat
Cab enclosure with side windows,
heater/blower, front door with
washer/wiper
Cab enclosure with side windows,
heater/blower, air-conditioning, front door
with washer/wiper
Special applications kit with polycarbonate
front door
5-button attachment control w/Harness &

14-pin connector plug
3" retractable seat belt.
3-point seat belt (3" lap with 2" shoulder)
4-Point lift kit

Controls

Electro-proportional auxiliary hydraulic control

Pilot-operated joystick controls

Engine

Engine block heater Engine auto-idling

Hydraulics

Hydraulic reservoir heater High flow hydraulics Hydraulic self level (lift only)

Electrical

Rotating beacon light Rear work lights Anti-theft function

Tires

Standard duty lug tires Heavy-duty lug Tires Over-the-tire steel tracks

Volvo Construction Equipment is different. It's designed, built and supported in a different way. That difference comes from an engineering heritage of over 170 years. A heritage of thinking first about the people who actually use the machines. About how to help them be safer, more comfortable, more productive. About the environment we all share. The result of that thinking is a growing range of machines and a global support network dedicated to helping you do more. People around the world are proud to use Volvo. And we're proud of what makes Volvo different - More care. Built in.

Not all products are available in all markets. Under our policy of continuous improvement, we reserve the right to change specifications and design without prior notice. The illustrations do not necessarily show the standard version of the machine.
