

VOLVO WHEEL LOADERS SEMI-OPEN CAB L60E, L70E, L90E

Volvo Wheel Loader Semi-Open Cab - Bringing the outside world... in

Introducing the Volvo L60E, L70E, and L90E, now with a semi-open cab, offering the ideal solution for applications where easy access and effective ground communication are vital to completing the job. The Volvo semi-open cab wheel loaders combine all the outstanding benefits of the E-Series wheel loaders with those features necessary for working in open environments. So, if your operation involves, for example, land clearing, general contracting, pipe/utility work, or landscaping, you'll be hard pressed to find any other loaders able to match the performance of our proven E-series wheel loaders.

The semi-open Volvo Care Cab

Volvo Care Cab has long been recognized as one of the industry's most advanced operator environments. The semi-open cab offers the same ergonomic design and functionality found in the enclosed Care Cab, including a ROPS and FOPS structure tested and approved according to all applicable standards. All instrumentation and switches are grouped on either the central dashboard or the right hand console. Both are specially designed to keep the elements out, while keeping the important machine information in front of the operator. Additional protection from the elements is provided by the front windshield, rear window, and front and rear wipers and washers. The semi-open cab also boasts a fully adjustable seat with a weatherproof vinyl seat cover and a heavy-duty rubber floormat, both of which are easy to clean after a full day's work. A standard vandalism kit, including integrated panel protection covers and a lockable storage compartment, keeps your loader safe from unwanted intruders.

The Volvo advantage

Naturally, all semi-open cab machines are equipped with Volvo's well-known

E-series features like high performance, low emission engines, transmissions with the Automatic Power Shift (APS) gearshifting system, load sensing hydraulics, visibility optimized Torque-Parellel linkage, and Contronic monitoring system. Together with Volvo Wheel Loaders' extensive range of Genuine attachments, these machines are optimized for outstanding power, high productivity, and low fuel consumption - even on your toughest hot weather jobs.

Engine rated output:

Bucket capacity:

Operating weight:

L60E 103 kW (140 hp) 1.7-5.0 m³ 10.5-12.5 t

113 kW (154 hp) 2,0-6,4 m³ 12.5-14.5 t

L70E

L90E 122 kW (166 hp) 2.3-7.0 m³ 15.0-17.0 t

All the functionality and durability of Care Cab - Designed to get the job done without compromise

STANDARD EQUIPMENT

Engine

Three stage air cleaner with ejector and inner filter Indicator glass for coolant level Preheating of induction air Muffler, spark arresting Fuel filter with watertrap Crankcase with ventilation oil trap

Electrical system

- 24 V, prewired for optional accessories Alternator, 24 V/55 A Battery disconnect switch Fuel gauge Transmission oil temperature gauge Coolant temperature gauge Hour meter Electric horn Instrument panel with symbols Liahtina: • Twin halogen front headlights with high and low beams
- Parking lights
- Double brake and tail lights
- Turn signals with flashing hazard light function
- Instrument lighting

Contronic.

- monitoring system, ECU with log and analysis system Contronic display Fuel consumption Outdoor temperature Engine shutdown to idle (selectable) for • High engine coolant temperature Low engine oil pressure • High transmission oil temperature Start interlock when gear is engaged Brake test Test function for warning and indicator lights Warning and indicator lights for: Charging · Oil pressure, engine • Oil pressure, transmission Brake pressure

OPTIONAL EQUIPMENT

(Standard on certain markets)

Service and maintenance

Tool box, lockable (L90E) Tool kit Wheel nut wrench kit

Engine equipment

Oil bath pre-cleaner Turbo air cleaner Fuel fill strainer Coolant filter Sy-klone pre cleaner Reversible fan

Electrical system

Air filter for alternator Alternator, 80 A Attachment working light Halogen working lights (2 front and 2 rear) Extra working lights front Extra working lights rear Acoustic back-up signal Rotating beacon, collapsible Warning beacon, flashing strobe light Indicator lamps Reverse lights 12 Volt outlet

Cab

Retractable seatbelt, longer and wider than standard Armrest (left) for ISRI operator seat Steering knob

- Parking brake
- Hydraulic oil level
- Axle oil temperature
- Primary steering
- High beams
- Turn signals
- Working lights
- Rotating beacon
- Preheating coil
- Differential lock
- Coolant temperature • Transmission oil temperature
- · Low fuel level
- Brake charging
- Level warnings:
- Coolant level
- Hydraulic oil level
- Washer fluid level

Drivetrain

- Automatic Power Shift with operator-controlled declutch function for transmission cut-out when braking
- Transmission modulated with single lever control PWM-control between different gear positions (L90E)
- Forward and reverse switch also by the hydraulic lever console Differentials:
- front: 100% hydraulic diff lock rear: conventional

Brake system

Wet oil circulation cooled disc brakes on all four wheels, outboard mounted Dual brake circuits, front and rear Dual service brake pedals Secondary brake system Parking brake, el.-hydraulic Brake wear indicator

Cab ROPS (SAE J1040CC, ISO 3471), FOPS (SAE J231, ISO 3449) Floor mat Interior rear-view mirror

Drivetrain

Diff lock front 100%, limited slip rear Speed limiter 20 km/h, 30 km/h

Hydraulic system

Single lever control Single lever control for 3rd hydraulic function 3rd hydraulic function Boom Suspension System Biodegradable hydraulic fluid Attachment bracket, cast, visibility optimized Separate attachment locking

External equipment

Mudguards, full coverage Mudflap kit for mudguards Logging counterweight Deletable front mudguards and rear wideners Footstep, right hand side including toolbox (L60E/ L70E)

Protective equipment

Guards for front headlights Guards for taillights Windshield guard Bellyguards, front and rear Cover plates, rear frame Radiator grille guard Battery boxes, steel Grease nipple guards Wheel/axle seal guards Center hinge and rear frame guards Cover plate, heavy-duty for front frame Cover plate, under cab Boom cylinder hose and tube guards

- 2 exterior rear-view mirrors
- Tinted safety glass Hip retractable seatbelt (SAE J386)
- Adjustable lever console
- Ergonomically designed vinyl operator's seat with
- adjustable suspension
- Storage compartment, lockable
- Sun visor
- Beverage holder Windshield washers front and rear
- Windshield wipers front and rear
- Interval function for front and rear windshield wipers Service platforms with anti-slip surfaces on front and rear fenders Speedometer
- Adjustable steering wheel

Hydraulic system

Main valve, 2-spool Pilot valve, 2-spool Variable displacement axial piston pumps for: working hydraulics • steering system, pilot hydraulics and brakes fan motor Boom lowering system (float) Boom lever detent, adjustable Boom kickout, automatic, adjustable Bucket positioner, automatic with position indicator, adjustable Hydraulic oil cooler

External equipment

Noise and vibration dampening suspension of cab, engine and transmission Lifting lugs Tie-down lugs Easy-to-open side panels and engine hood Frame steering, joint lock Vandalism lock prepared for batteries, engine compartment, radiator, dashboard and interior panels Towing hitch

Other equipment

Sign, slow moving vehicle Single acting lifting function Sign 50 km/h

Tires 17.5 R25 (L60E) 20.5 R25 (L60E, L70E, L90E) 650/65 R25 (L90E) 600/65 R25 (L60E, L70E)

Attachments Buckets:

- Straight with/without teeth Spade nose with/without teeth Flat floor Grading High tipping
- Light material
- Bolt-on and weld-on bucket teeth Cutting edge in three sections, bolt-on Fork equipment Material handling arm Log grapples

Technology on Human Terms

Volvo Construction Equipment is one of the world's leading manufacturers of construction machines, with a product range encompassing wheel loaders, excavators, articulated haulers, motor graders and more.

The tasks they face vary considerably, but they all share one vital feature: technology which helps man to perform better: safely, efficiently and with care of the environment. We refer to it as Technology on Human Terms.

The sheer width of the product range means it is always possible to choose exactly the right machine and attachment for the job. Each machine also comes with the quality, continuity and security which is represented by the Volvo name. The strength of the service and parts organizations; the security of always having immediate access to leadingedge research and technical development are part of the Volvo name. A machine from Volvo meets the very highest demands in all kinds of jobs, under all conditions, the world over.

Volvo Construction Equipment develops, manufactures and markets construction equipment. We are a Volvo company with production facilities on four continents and a market presence in over 100 countries.

For more information please visit our website: www.volvo.com

All products are not available in all markets. Under our policy of continuous improvement, we reserve the right to change specifications and designs without prior notice. The illustrations do not necessarily show the standard version of the machine.
