

## Like new: Volvo Certified Used program offers more options to get high-quality machines

**With demand for pre-owned equipment growing, the new Volvo Certified Used program gives customers an opportunity to buy machines that have been thoroughly inspected to ensure long-lasting performance.**

Volvo Construction Equipment has created a used equipment program that allows contractors to get the high-quality machines Volvo is known for with the assurance that the equipment is in great condition — all with the savings that come with buying used.

“As customers look to lower their total cost of ownership, the demand for pre-owned equipment has grown greatly in recent years, and the new Volvo Certified Used program allows contractors to purchase a machine knowing that it has been thoroughly inspected to ensure it is capable of performing on the most demanding jobsites,” said Tara Stryker, director of remarketing at Volvo Construction Equipment. “The

used equipment available to customers covers the breadth of our product lines, from excavators to wheel loaders to paving equipment to attachments and more.”

### **Two-tier system**

All [Volvo Certified Used Equipment](#) is inspected and classified into one of two categories:

- Volvo Certified
- Volvo Certified Engine Ready

To be classified as **Volvo Certified**, a machine is tested and refurbished using Genuine Volvo parts and components. These machines come with a 24-hour parts guarantee for Class 1 parts. The guarantee is 48 hours in Hawaii and Canada.

The second tier of used equipment, **Volvo Certified Engine Ready**, includes machines destined for work in less regulated markets outside of the United States and Europe.

Equipment will be inspected and certified through approved Volvo dealers in an export market where engine de-tiering can be done.

Compatible machines in the Volvo Certified tier come with a one-year subscription to [ActiveCare Direct](#), the Volvo telematics service that provides 24/7/365 machine monitoring and fleet utilization reporting directly from Volvo. Volvo Certified machines also qualify for Volvo’s lifetime frame warranty, the only in the industry to cover used equipment.

### **0% for 12 months**

For a limited time, Volvo Financial Services is offering 0 percent financing for 12 months on select pre-owned Volvo machines. Extended warranties are also available.

### **Find Volvo Certified Used Equipment today**

To find Volvo Used Equipment, visit [volvousedce.com](http://volvousedce.com). And stay up to date on available Volvo Used Equipment by signing up for our [weekly e-newsletter](#).
