Volvo Construction Equipment (Volvo CE) - parts of Volvo Group - is a major international company that develops, manufactures and markets equipment for construction and related industries. With over 14,000 employees, Volvo CE is one of the largest companies in the industry. Their wide range of products and services are offered in more than 140 countries through the global distribution network. Their human-centric focus is what makes Volvo Group different from all other automotive companies. They offer an attractive, inspirational working environment that supports people growth and provides stimulating challenges.

For the growth and development of the Volvo CE Italian Sales Company – a branch of the successful, global company passionate about creating sustainable business and empowering people - we are looking for a:

Business Controller

Reporting to the local Business Control and Processes Manager, she/he will support the planning, forecasting and reporting processes; he/she will also analyse, report and follow up the business performances, the company costs, the investments and the main KPIs. The position requires active co-operation with the internal accounting department and the rest of the Finance Team.

Key responsibilities:

- Ensure timeless and quality of Monthly Closing, Budgeting & Forecasting Processes and Management Reporting, while contributing to analyze and follow up the performances of all the business lines (new machines, used machines, rental, spare parts and workshops).
- Review of the company's revenues and expenses, verifying also the correct allocation in the proper profit/cost centres.
- Support the definition and/or the review of the business processes and procedures working in close collaboration with all the company's departments, contributing to identify the required changes and system implementations if needed.
- Support the implementation of the branches reporting, of the new internal dashboard and any other ad hoc report.
